## Chappie's Sewer District Bill Now Before Governor

Assemblyman Gene Chappie of the 6th District announced that AB 2618 as introduced by Chappie passed the legislature June 18, and is now on the governor's desk for signature.

The bill provides for the creation of a sanitation authority at the North End of Lake Tahoe. The authority will be set up along the lines of a county water agency.

"Its purpose," said Chappie, "would be to acquire, construct and operate facilities for the collection, treatment and disposal of sewage, waste and storm waters delivered to it by its member sewage agencies."

Chappie further stated that a great deal of study has been given to different proposals for the exportion of sewage from the North Lake Tahoe Basin and that Plan "B" has been approved by a majority of the local sewage agencies.

Plan "B" provides that effluent from the north shore (which extends from Incline Village along the north and west shores of the lake to the D. L. Bliss State Park) be pumped to a central collection point such as Tahoe City and thence out of the Tahoe Basin along a route running parallel with the Truckee river.

Assemblyman Chappie called the bill, "one of the most important proposals to come out of the 1965 session of the legislature. In this regard I urge the governor to sign this measure into law so that we can begin immediate action to preserve the clear waters of Lake Tahoe.

Heavy runoff during the December 1964 storms damaged embankments at both ends of the bridge and temporary repairs were made then to keep the span open.

## Four Deputies For Truckee Included In Sheriff's Budget

The Nevada County Board of Supervisors last week tentatively approved the budget for Sheriff Wayne Brown which contains a provision for adding four deputies to the staff in the eastern section of the county.

The additional deputies, providing the budget gets final approval, will be used to maintain a 24-hour service at the Truckee jail as well as allowing for more patrol and investigating services.

Currently, there are only three deputies and a sergeant here, although four are allowed under the present budget. Preston Patnoude is on an extended leave of absence and is not expected to return to the job. Another deputy according to Sergeant Roy Waters, in charge of the local squad, is planning to leave shortly.

This leaves a real gap in the police protection here and one which the grand jury, the sheriff's office and the board of supervisors hope to correct as quickly as possible.

A recent communication from the department of correction advised that jails should be manned when prisoners are being held.

A short time later he disappeared and a search was organized by Sergeant Roy Waters of the sheriff's department. More than 50 men, including the inmates from the forest service camp at Hobart Mills, the Sierra Nevada Rescue Unit and others joined in the search which lasted all night.

Sunday morning, the body was found by the victim's father, under a clump of willows near the Frank Fox home just west of town.

A bad bruise on the man's forehead indicated that he may have fallen and struck his head before drowning. He was an excellent swimmer.

The search started at 10:30 Saturday night when Williamson did not show up at the camp.

The body was taken to the Truckee Colonial Mortuary and later shipped to Richmond for funeral services.

The Nevada County Board of Supervisors is currently studying a proposed ordinance establishing a business license in the unincorporated areas of the county and indications are that it will be passed in the near future.

There is still the matter of fixing the license fee for many businesses but it was definitely established that all businesses, unless specifically exempted, would be required to pay the annual fee in the area outside the cities.

Some of the fees indicated in the tentative ordinance include $15 for transient operators, $25 for games of skill, $5 per dance, animal shows $5 per day, auto races $10 a month, Christmas tree dealers $5 a month, shooting matches $3 a day and theatrical performances other than motion pictures $10 a day.

Every person applying for a license to handle food would have a permit from the county health department as would those applying for a license for septic tank service.

Work is going forward on developing the playground area just south of Truckee on the Brockway shortcut for the Truckee Donner Recreation and Park District, according to Randy Bobby, district director, who said that some of the facilities will be ready this summer.

In the meantime, Bobby said, the directors are working to secure an additional 15 acres adjoining the 35 acres they now control so that the district may apply for state beaches and park funds for further development.

Expected to be completed this summer for use next year are three baseball parks, one for softball, one for junior league and the third for regulation play.

Other projected plans for the year call for a double tennis court which can be flooded to provide a skating rink during the winter, a tiny-tot play ground with sand boxes and equipment, a riding trail and possibly an archery range.

Ultimately, additional facilities will include a golf range, outdoor gymnasium equipment, wading pool, multipurpose court, a building to house an auditorium, kitchen facilities and office, outdoor bowling and other recreational devices for young and old.

## Contract Awarded To Build New Post Office For Beach

Postmaster General John A. Gronouski announced yesterday that a contract has been awarded to Donald J. and Elizabeth G. Davenport, Long Beach, to build the new post office in Kings Beach, and lease it to the post office department.

The announcement of the award to the successful bidder advances the new building closer to the construction stage. When fully operational, the postmaster general said, the additional space and more modern equipment will, in the lon run, more than offset the extra cost involved in producing more efficient handling of the mail, in accord with President Johnson's directive to provide the best possible postal service at the least possible cost.

"This project is in accordance with our policy of building new post offices only where they are urgently needed," Gronouski said. "We are constantly reassessing our construction program to determine whether present buildings can be altered or remodeled to take care of our expanding mail volume."

The new building on the north side of Salmon Street between Fox and Coon Street will be leased to the department for 10 years with renewal options running through 20 years.

The one story building will have an interior space of 4,073 square feet, compared with a total of 1,071 square feet for the present building. The area for parking and movement of postal vehicles will total 9,206 square feet.

The new post office is expected to be completed in 13 months.

Gronouski explained that the department's capital investment is limited substantially to postal equipment. The building will remain under private ownership, with the owner paying local real estate taxes.

## Special Road Tax For Area Assured

H. G. Loehr, supervisor for the fifth Nevada County district, predicted this week that the board of supervisors will take official action on July 1 to set up a special road tax in this area to provide for the lease-purchase of $112,000 worth of snow removal equipment.

The equipment thus purchased, Loehr explained, would supplement the present equipment which is inadequate to handle the increasing needs of the district and would be used exclusively in the local communities and not subject to removal to other portions of the county.

Loehr said the fact that the county is being required to take over roads abandoned by the state due to the new freeway and the ever-increasing number of new subdivisions makes it imperative that equipment over and above that provided by the county be obtained.

The tax, spread over a period of three years, or during the incumbency of the present supervisor, would probably be in the vicinity of 30 cents per $100 of assessed valuation, Loehr said.

"The increasing demand for more and better service in snow removal makes it impossible to operate with the available equipment," Loehr declared. "Unless we take the action requested, the situation will get worse instead of better."

## CAR WINDOWS ARE BROKEN BY ROCKS

The Wee Kirk o' The Pines, the Community Methodist Church at Kings Beach, was the setting for the wedding of Marlea Gail Draney to Robert John Tamblyn at 2 o'clock Saturday June 18th.

Marlea wore a full skirted gown with train having a lace bodice with finger tip sleeves, scoop neck, and a veil which was held in place by a circlet of flowers. Her bridal bouquet was of pink roses. She was given in marriage by her father, Theron Welker Draney.

The bride's cousin, Linda Draney, was maid of honor. Linda was attired in a pink sheath with a deeper pink mantilla and matching shoes. Her bouquet was white roses.

Mrs. Theron Draney wore a blue chiffon afternoon dress, a pink, blue and white varigated hat, white accessories and a corsage of roses.

The groom's mother, Mrs. William Tamblyn wore an afternoon suit of gold and green with complementtary accessories and an orchid corsage.

The best man was Tyler McHugh of Nevada City and ushers were Denny Hiller of Kings Beach and John Frantz of Berkeley.

Marlea is well known having attended the local school and Tahoe Truckee High and Fleur de Lac. Robert is a graduate of Sacramento State.

An antique gold knit suit with complementary accessories was chosen by Marlea for her going away outfit.

## Tahoe Shows Huge Population Growth

AUBURN—A just completed special census of the Placer County portion of the Lake Tahoe area indicates the area is booming and aggressive with a 27.5 per cent increase in population in the last five years. The report also says that 57 per cent of the permanent population is under 34 years old.

In a report issued by Placer County Supervisors Chairman Robert Radovich, the permanent population for the area was pegged at 4,497 persons as of April 1, this year.

The special report is a part of a county-wide census project. According to Radovich, figures on the remainder of Placer County will be released within three weeks.

"If the trend at Tahoe," Radovich said, "holds for the rest of the county, we should have a permanent population of approximately 75,000." The 1960 census lists the county's population at 58,000.

Other figures on the Tahoe area show that there are 4,468 housing units including 3,898 single family homes, 223 2-4 unit housing complexes, 167 units with five or more permanent housing facilities and 180 trailers.

Of the total housing units, the census takers found that 66 per cent are occupied by permanent summer residents.

The Placer County portion of the Lake Tahoe area surveyed runs from Tahoma to Crystal Bay and along the Truckee River, including Squaw Vallley.

## Airlines Curtailed In New State Ruling

SACRAMENTO — (CNS) — Airlines operating in California on an intrastate basis, not subject to provisions of the federal government regulating airlines, were brought under supervision of the California Public Utilities Commission today when Governor Edmund G. Brown signed AB 413, by Assemblyman John C. Williamson, D-Bakersfield, into law.

The governor said the bill is a major step in protection for the public.

"It will enable PUC to suspend certificates of these intrastate air carriers for failure to comply with insurance regulations and to hold hearings on possible violations of the law."

Under present law, the PUC may regulate only the rates charged by intrastate carriers.

# DONNER DOINGS. . . .

By Vi White

Ah, June 21 marked the first day of summer officially and what a gorgeous day it was. Warm and typical of this time of year, a small thunder storm late in the afternoon brought heavy rain for just a few minutes. Thank goodness it came straight down so the windows didn't have to be washed again.

The water skiers have been having a great time on the smooth water lately.

* * *

It's good to see the work being done on the new freeway. Those all important guard rails are being installed and should keep the cars from going right over the banks when they can't negotiate the turns.

The highway patrol reports that the smaller cars are the ones that have the trouble slowing down and making those long sweeping turns coming down the new summit. It's such a nice wide and easy drive, everyone has a tendency to go too fast.

Guess it won't be long before the paving is put down on that stretch by the park on old hiway 40. The inconvenience we're going through now will all be forgotten then.

* * *

Another hearing will be held with the board of supervisors July 1 in Nevada City on the acceptance of a road assessment district at the west end of Donner Lake. Seems the screening committee goofed by not having their report ready at the last meeting June 16. The hundreds of property owners affected are certainly hoping the board makes a favorable decision like Placer County did last month. The long red tape now measures 23 months with county officials driving us to the point of exasperation with delaying tactics.

Twenty Donner Lakers treked to Nevada City to the last hearing only to have the supervisors refer it back to the screening committee.

* * *

Bob Lewis of Lafayette is assuming the duties of gate keeper at the Donner Lake Property Owners' Association beach again this year. The group got together last weekend to do some needed cleanup there. A general meeting will be held July 4 at 1 p. m. when election of officers will be held.

* * *

Donner Lake Lodge is again operating on a full schedule except on Tuesdays. Owner and manager, Ann Nesbitt hopes many of her friends will come in and see her and Skip at the bar, Rusty, Jo, and Bertha at the coffee shop and dining room.

* * *

A cute little mother duck and her five tiny ducklings have made the trip up and down the lake every day passing in front of our pier. It's going to be fun to watch them grow.

## SIERRA TO REGISTER IN SUMMER MONTHS

Students who plan to attend fall session at Sierra College were reminded today that, under a new counselling system, they will be interviewed and programmed during the summer months. They should apply in person or by mail as soon as possible. Deadline is August 31, Registrar Martin Taylor reminded.

Transcripts of all college or high school work are required prior to admission.

## Cyclists Warned As Schools Are Closed

Warm weather is here, school is out and youngsters are turning with renewed interest to their bicycles.

To prepare for a summer of trouble-free riding, youngsters should check now to make sure their bikes are in top-notch condition, taking particular care to assure that brakes and lights are in good working order, Bradford M. Crittenden, commissioner of the California Highway Patrol, said.

"Bicycle brakes must be able to make one wheel skid on dry pavement. For after-dark operation, bicycles must be equipped with a white light on the front—visible for 100 yards—and an approved reflector on the back, also visible for 100 yards. The rear reflector can be supplemented with a red light.

The commissioner emphasized the critical danger to which bicycle riders are exposed when they ride at night without lights.

"Bicyclists frequently escape a motorist's vision even in daylight. At night the driver has a far more difficult time. Often he can be virtually on top of a bike before he sees it. Putting the required light on a bicycle is a matter of simple self-protection," he declared.

## Judith Downie Wed To Everett Fordham

The United Church of Christ in Squaw Valley was the setting Satusrday for the double ring ceremony when Judith Ann Downie became the bride of Everett William Fordham.

The bride chose a white satin chapel length gown, with train. It was styled with a bateau neckline and fitted bodice, Chantilly lace trimmed. A crown of pearls held the elbow length veil and she carried a bouquet of white orchid and stephanotis.

Her attendants were Miss Betty Becker of Minnesota, Cheryl and Marie Johnson of Santa Clara with Gail Brose as flower girl. Their gowns were of pink chiffon with white lace, with complementary head pieces, their bouquets blended with their ensembles, being deep pink roses.

David Fordham was the best man and seating guests were Alvin Nix and Robert Brose.

A reception was held following the wedding rites in the Wyethia Women's Club, the just weds later spent some time at Lake Tahoe.

The bride, who is the daughter of Mr. and Mrs. Samuel Downie of Waseca, Minnesota, attended the high school in her home city and the University of Minnesota.

Fordham is the son of William Fordham of Truckee and Mrs. Shirley Johnson of Santa Clara. He received his schooling at Milbrae and served six years in the United States Navy. The new Mr. and Mrs. Fordham received the good wishes of their friends and plan to establish their home in Truckee.

## Controversy Ends In Dispute On Garage

The controversy over the refusal of the Nevada County Planning Commission to issue a permit for the Alpine Smith Construction Company for a self-repair garage on the Brockway shortcut just south of Truckee came to a surprising conclusion before the board of supervisors last week.

Ray Smith, head of the firm, through his attorney, asked that the request for a permit to erect the garage be withdrawn.

As the matter now stands, the planning commission was not overruled; the request for a commercial garage permit was withdrawn; the contention of the planning director, William Roberts and the county counsel, Leo Todd has been sustained and Smith is at liberty to proceed with his storage and self-repair yard without planning commission or supervisorial restraint.

Joseph Q. Joynt represented Smith in the action and Hugh Lawrence was attorney for the opposing property owners.

Smith in the beginning had been advised that he needed no permit by Roberts and other officials and started work on this project. Opposition arose and Smith was advised that a permit was required. This he applied for and it was denied on the basis that his garage, to be used for housing and repairing his own equipment was classified as commercial in an A-1 zoning area.

There is still a question as to the legal interpretation of commercial as it applies to the area and this question has not been definitely settled. Both Roberts and Todd hold that the word commercial does not apply to Smith's proposed structure.

While no action was taken by the supervisors after long and sometimes bitter arguments, it seemed apparent that the temper of the board was that Smith was within his private property rights and was not engaged in operating a commercial garage.
